Professor Joshua Lederberg  
Department of Genetics  
Stanford University  
Medical Center  
Palo Alto, California

Dear Professor Lederberg:

Thank you for your thoughtful letter of October 24  
to Willard Bascom about the biological work on the Mohole.

It might be a few days before he answers it because  
he is out of town, but upon his return I shall bring it  
to his attention.

Very truly yours,

Sheila Walker (Miss)  
Secretary to Mr. Bascom
